All courses numbered from 101-199 are open to freshmen.

SOCIAL SCIENCE 102—FRESHMAN LECTURES, IS REQUIRED OF ALL ENTERING FRESHMEN AND WILL BE PLACED ON EVERY SUCH STUDENTS' PROGRAM ON MANDAY AT 3:30.

All courses numbered from 201-299 are open to sophomores who have met the proper prerequisites. The minimum requirements for sophomore standing are 30 credits with a grade point average of 1.1.

All courses numbered from 301-399 are open to juniors and seniors who have met the proper prerequisites. The minimum requirements for junior standing are 60 credits. See page 25 of general catalog for additional requirements.

Courses number 401 or above are open only to seniors who have met the proper prerequisites. The minimum requirements for senior standing are 94 credit hours.

Students should not register in classes offered in years above their class standing. Upper classmen will occasionally find it necessary to register in classes offered in years below their class standing; but in every case they should make sure that two-thirds of their work in the junior and senior years is in classes open only to juniors and seniors.

ADMISSION TO THE JUNIOR YEAR

Notices have been mailed by the Committee on Admissions to all students who made application for admission to the junior year, giving them the decision of the Committee in their respective cases. Only those students who have notice of admission to the junior year, either with full standing or with conditions, will be permitted to enroll in senior college courses. Lists of students who have been thus admitted to each division will be in the hands of the directors of the respective divisions.

In each case where conditions have been imposed, the condition has been stated in the letter mailed to the student and will be given on the list placed in the hands of each division director. Careful attention should be given to these conditions as students thus admitted to the junior year will not be permitted to do student teaching until the condition is removed.

No student who has less than 60 credits has been admitted to the junior year. Such students will remain as sophomores and complete their lacking junior college requirements. Their applications will be considered as soon as the required 60 credits are earned. Such students who filed their applications and who carefully arrange their programs under these conditions will be able to meet the senior college requirements in three semesters where necessary if all junior college requirements are completed before entering the junior year.

In cases where students have been asked to remain as sophomores for a semester, in the effort to bring their standing up sufficiently to enter the junior year, the conditions governing their work as sophomores has been stated in the letter mailed to each individual student.

STATE TEACHERS COLLEGE

Milwaukee, Wisconsin

Schedule of Classes for First and Second Semesters, 1932-1933.

Each student will be provided with a copy of this schedule, which should be preserved as enough copies will probably not be available to provide duplicates.

Students now enrolled in the College, who expect to be juniors and seniors in 1932-33 are requested to complete their programs before June 3, 1932. All other juniors and seniors will register Thursday, September 15, 1932.

Sophomores, Juniors and Seniors will register on Thursday, September 15, 1932. Class work will begin Friday, September 16, 1932.

Directors of Divisions will be in their offices on Friday and Saturday, September 9th and 10th, to interview students and assist in making out programs in advance in order to avoid congestion on registration days. Their offices and those of the Heads of Departments are given below:

All courses numbered from 101-109 are open to freshmen.

SOCIAL SCIENCE 102—FRESHMAN LECTURES, IS REQUIRED OF ALL ENTERING FRESHMEN AND WILL BE PLACED ON EVERY SUCH STUDENT'S PROGRAM ON MONDAY AT 3:30 P. M.

All courses numbered from 201-299 are open to sophomores who have met the proper prerequisites. The minimum requirements for sophomore standing are 26 semester credit hours and 26 grade points. See p. 6 for additional requirements.

All courses numbered from 301-399 are open to juniors and seniors who have met the proper prerequisites. The minimum requirements for junior standing are sixty credit hours and sixty grade points; for senior standing, ninety-four credit hours and ninety-four grade points. See pp. 5 and 6 for additional requirements.

Courses numbered 401 or above are open only to seniors who have met the proper prerequisites. The minimum requirements for senior standing are ninety-four credit hours and ninety-four grade points.

Students should not register in classes offered in years above their class standing. Upper classmen will occasionally find it necessary to register in classes offered in years below their class standing; but in every case they should make sure that two-thirds of their work in the junior and senior years is in classes open only to juniors and seniors.

All part time students, either residents or non-residents shall pay an incidental fee of eight dollars per semester. Eight credits or less constitutes a part time program. This does not include summer session students.

See general catalog for statement of refunds.

A late registration fee of one dollar will be charged after the first **four** days of registration for the first semester, after the first three days of the second semester, and after the first two days of the summer session.

MISCELLANEOUS EXPENSES

In drawing and manual training classes students pay for material used.

For all men students registered for physical education 101, 102, 103 and 104, a fee of \$5.00 will be charged, which will include lock and all equipment necessary for class work, except shoes which must be furnished by the individual, and laundering.

Upon return of all equipment the student will receive a rebate of \$2.50. A charge for any equipment not returned will be deducted from the rebate.

For all women students registered for Physical Education 101, 102, 103 and 104, a fee of \$4.00 will be charged which will include lock, swimming suit, towel and laundry. Upon return of this equipment at the end of the semester, a refund of \$1.50 will be made. A deduction from the refund will be made for any equipment not returned.

STATEMENT OF ENTRANCE REQUIREMENTS TO MILWAUKEE STATE TEACHERS COLLEGE FOR THE SCHOOL YEAR OF 1932-1933 AND THEREAFTER

Three factors make it necessary and advisable to revise the entrance requirements to Milwaukee State Teachers College:

- a. Our limited facilities in both building space and teaching staff.
- b. The limited number of teaching positions open to our graduates.
- c. Our duty to provide the best possible teachers for the boys and girls of Wisconsin.

In view of the influence of these three factors, the College will require for entrance beginning with the school year of 1932-33, a predicted average of $1.3 \pm .437$ grade points as determined by the prediction formula developed by Henmon and Holt for the Committee on Co-operation of the Wisconsin Secondary Schools and Colleges and published by the Bureau of Guidance and Records of the University of Wisconsin. A full account of the development of the prediction formula and its validation by testing it out in actual practice is explained in detail on pp. 52-64 of the above bulletin published in June, 1931. A probable error of $\pm .437$ allows enough variation to give students who will probably not be able to make the required average an opportunity for a trial. Further data proving its use in actual practice is now available in the Bureau of Guidance and Records at the University of Wisconsin.

Since this formula involves the use of (1) the rank in class and (2) the percentile rating on the aptitude test given under the direction of the University of Wisconsin to all high school seniors, high school principals are requested to report accurately both rank in class and the percentile rating of each student applying to Milwaukee State Teachers College for admission and also to urge all applicants to have their applications in not later than August 1st in order that they may be notified early in case they are ineligible for admission. **No applications will be accepted after September 1st, except as available vacancies arise.**

Since the college is a state institution, any student, who feels that the use of the prediction formula does not do him justice, may take the entrance examinations. Students who wish to take the entrance examinations to qualify should make applications as directed on page 20 of the 1931-32 catalog. **This makes early application imperative in order to allow time to arrange for the examinations in cases where necessary.**

ENTRANCE REQUIREMENTS TO THE JUNIOR YEAR OF MILWAUKEE STATE TEACHERS COLLEGE

(See 1931-32 Catalog, page 17.)

1. At the close of the sophomore year students shall be classified according to their college records into:

Class 1—Students who have a grade point average of 1.3 or higher.

Class 2—Students who have a grade point average of between 1.1 and 1.3.

Class 3—Students who have a grade point average below 1.1.

2. Provisions for promotion:

Class 1: The registrar shall certify these students for admission to the junior year and to candidacy for the degree of Bachelor of Education provided they have shown satisfactory proficiency in speech, English, and reading ability.

Class 2: (a) Students in this class must provide satisfactory proficiency in speech, English, and reading ability. (b) They must also pass a general sophomore comprehension test, such as the American Council test or one similar, with a percentile rank to be determined later, (c) When a student meets these requirements (a and b), he shall be admitted on probation to the junior year and to candidacy for the degree of Bachelor of Education. (d) In case a student fails to qualify in either or both of the above points (a and b), he shall retain his sophomore standing until such time as he does qualify. The Advanced Standings Committee shall determine the length of time and the conditions for making up such deficiencies as sophomores and for the removal from probation as juniors.

Class 3: (a) Students in this class shall in general be excluded from admission to the junior year and from the continuance of further work in the College. (b) A student in this class may make written application to the Scholarship Committee asking that they consider the further continuance of his work as a sophomore on the basis of considerations of merit as set forth in his application, if he feels that his grade point average has been caused by factors over which he has had no control. (c) A student in this class may withdraw from the College and make application for re-entrance after the lapse of at least one year. The Scholarship Committee will consider the application and use its discretion as to permission for such re-entrance.

3. Admission to the junior and senior year by transfer from other institutions shall be open to students whose grade point average place them in Class 1 or Class 2. They must satisfy the conditions outlined above for the class into which they fall before they may be admitted into the junior or senior year and to candidacy for the degree of Bachelor of Education.
4. The Scholarship Committee shall consider for dismissal or continuance all students who, at the close of the freshman year, have failed to make 30 credits with a grade point average of 1.1.

DESCRIPTION OF NEW COURSES

Art 219—Art History. I and II, Th. 3:30-5:30. 18 weeks, 2 hours, 2 credits. This is a short history of painting, sculpture, and architecture open to all students of sophomore standing. The aim will be to develop an appreciation for these fine arts and to give college students an approach through the artist's point of view. This course carries valid elective academic credit usually transferrable to other institutions.

Prerequisite: Sophomore standing.

Mr. von Neumann

Art 104a—Sketching. I and II, W. 1:30-3:30. 18 weeks, 2 hrs., 1 credit. A course designed to acquaint college students with the use of various graphic mediums in drawing from the costumed model. Open to all freshmen and carries valid elective academic credit, which is usually transferrable to other institutions, if three credits are earned by taking Art 104b and 104c in addition.

No prerequisite.

Miss Schwab.

Art 104b—Sketching. II, W. 1:30-3:30. 18 weeks, 2 hours, 1 credit. A continuation of Art 104a.

Prerequisite: Art 104a.

Miss Schwab.

Art 104c—Sketching. Not offered in 1932-33. 18 weeks, 2 hours, 1 credit. A continuation of Art 104b.

Prerequisite: Art 104b.

Art 218a—History of Art. I, M. 3:30-5:30. 18 weeks, 2 hrs., 2 credits. Same as 218 in 1931-32 catalog.

Prerequisite: Sophomore standing.

Mr. von Neumann.

Art 218b—History of Art. II, M. 3:30-5:30. 18 weeks, 2 hrs., 2 credits. A continuation of Art 218a and a substitute for Art 217b, Commercial Design.

Prerequisite: Art 218a.

Mr. von Neumann.

CHEMISTRY

Due to insufficient laboratory space, during 1932-33, Chemistry 201, Qualitative Analysis, will not be given as a separate course, but will be included in Chemistry 101b. Both Chemistry 101a and 101b will therefore be five credit courses and meet daily.

THE INTERMEDIATE EXAMINATION IN LATIN, FRENCH AND GERMAN

At the end of the second year of college work in Latin or Modern Foreign Languages, students are required to pass a mastery test in the foreign language which they have studied in order to prove that they have a reading knowledge of that language. The examination consists of a standard test which includes not only a part to test the student's ability in comprehending selections in the foreign language, but also the student's knowledge of vocabulary, grammar, and idiomatic expressions of the foreign language studied.

Students who have completed four years of Latin or Modern Foreign Languages in high school or who have studied the language outside of regular class work, may be granted permission to write the mastery test and thus fulfill the requirement of two years of college work in this way. The latter method, however, does not give the student regular college credit. It merely absolves him from further work in foreign languages.

HISTORY

History 321a—Contemporary American History. I. 18 weeks, 3 hours, 3 credits. A survey of recent American History.

Prerequisite: Jr. Standing and 6 credits of American History. Dr. Klotsche.

History 321b—Contemporary American History. II. 18 weeks, 3 hours, 3 credits. A continuation of 321a. Prerequisite: History 321a. Dr. Klotsche.

LIBRARY SCIENCE

Library Science 308—Cataloging. II, T.Th.F. 8:30-9:30 and M.T.Th. 9:30-10:30. 18 weeks; 6 hours, 3 credits. A continuation of Library Science 304.

Prerequisite: Library Science 304. Miss Buck

MATHEMATICS

Mathematics 310—Elementary Theory of Equations. I, M.Th. 11:30. 18 weeks, 2 hours, 2 credits.

Prerequisite: Mathematics 306a. Miss Knight.

Mathematics 312—Differential Equations. II, M.W.F. 10:30. 18 weeks, 3 hours, 3 credits.

Prerequisite: Mathematics 306b. Mr. Norris.

Mathematics 314—History of Mathematics. I, M.W. 8:30. 18 weeks, 2 hours, 2 credits.

Prerequisite: Mathematics 205. Miss Knight.
